Unleaded petrol was introduced in the four metropolitan cities on 1.4.95 for catalytic convertor fitted vehicles. The second phase would cover all capitals of States & Union Territories by December, 1998. This is likely to be progressively implemented throughout the country by 01.04.2000;

Enforcement of standards for control of vehicular emission through State Transport Authorities;

Government of Delhi has been impressed upon to induct more buses (preferably high capacity buses) to augment its fleet strength and to phase out the old buses;

Industries have been directed to install necessary pollution control equipment within a stipulated time-frame and legal action is taken against the defaulting units.

Environmental guidelines have been evolved for sitting and operation of industries.

Fiscal incentives are provided for installation of pollution control equipment and also for the shifting of industries from congested areas.

Customs and excise duty exemption are provided to the industries for pollution control/monitoring equipment.

A scheme for setting up of Common Effluent Treatment Plants (CETPs) in clusters of small-scale industrial units is under implementation.

Public awareness campaigns on the effects of pollution have been launched.

A network of ambient air and water quality monitoring stations have been set up.

More stringent norms for vehicular emissions have been notified under the Motor Vehicles Rules, 1989 which have come into force from April, 1996.
